BATTLE FOR RELIEF OF LADYSMITH BEGUN

General Warren Begins the Bombardment. Of Boer Trenches and Buller's Army Is Now in Sight of the Town So Bravely Defended By Gen. White's Forces.

A BOER METHOD OF FIGHTING.

Dutch Inhabitants of Colesberg Fear the Capture of the Town and Flee to the Orange Free State.

Associated Press Dispatches by The Tribune's Special Leased Wire SPEARMAN'S CAMP, Natal, Jan. 20.—11 a.m.—The firing of field guns was heard early this morning from the left. Evidently General Warren has command of the bombardment of the Boer trenches on the Tabanymys mountain. There was also a brief musket fire. Among the prisoners captured Thursday was a grand son-in-law of President Kruger.

DUTCH FEAR THE FALL OF COLESBERG.

Associated Press Dispatches by The Tribune's Special Leased Wire RENSBURG, Cape Colony, Friday, Jan. 20.—Inhabitants who have escaped from Colesberg report that the Dutch inhabitants who are sympathizers with the Boers are proceeding to the Orange Free State. In anticipation of the capture of the town, General Methuen, a member of the Cape Assembly, has already gone. The Boer force there is estimated to number from 6,000 to 7,000 men, besides a strong force at Norval's Pont. The British shells did much execution eastward of the town. The Boer loss up to date is probably 200 men.

Carefully compiled figures from Republican sources, some of which have been investigated and found to be correct, show the Boer losses up to date to be probably 6,250 men, including 2,000 casualties during the siege of Ladysmith.

GEN. BULLER IN SIGHT OF LADYSMITH

LONDON, Jan. 20.—Telegrams from the

front indicate that the southward march of the relief column is progressing steadily. Towards Ladysmith is proceeding steadily. The authorities here seem satisfied that now General Buller's forces are within sight of Ladysmith. The besieged place is at present from seven miles to the rear of the Boer trenches on the Tabanymys mountain. No news of real importance was made public up to 2:30 o'clock this afternoon, and there was nothing to show that the general engagement so frequently rumored had yet commenced, though obviously news of such a battle is momentary expected.

A NEW PRESS CENSOR.

Advices from Cape Town say Lord Roberts has appointed Lord Stanley (member of Parliament for East Lancashire and a former Lieutenant of the Grenadier Guards) to be press censor.

Prince Francis of Teck has gone to the

Duke of Marlborough, in his capacity as a staff officer, set for South Africa today. The Duchess and her mother, Lady O. P. Ponsonby, accompanied him as far as Southampton. The Duchess will not, however, go with her husband to the Cape. The Duke does not take a large retinue of servants to the front with him, as has been frequently intimated, but is accompanied only by his wife, who probably will be replaced by the usual officers "striker" when he gets into camp.

The departure of the second despatchment of the London Volunteers today was accompanied by the customary scenes of distress, and they were given a hearty final send-off on boarding the transports at Southampton.

GEN. FRENCH THREATENS THE BOER LINE.

Associated Press Dispatches by The Tribune's Special Leased Wire LONDON, Jan. 20.—4:25 P. M.—The only War Office dispatch made public up to this hour is a brief report from Field Marshal Lord Roberts, dated today, to saying in substance that General French has extended his line to the east, further

threatening the Boer lines of communication. The Tribune's Special Leased Wire SOUTHPAMPTON, Jan. 20.—The transport Kintawas Castle, with the Duke of Marlborough, Rudyard Kipling, Baroness Burdett-Coutts, Admiral Frederic A. Maxse and many army officers on board, bound for South Africa, sailed today.

She was enthusiastically cheered by the large crowds of people who, in spite of the fact that it was raining heavily, lined the quays.

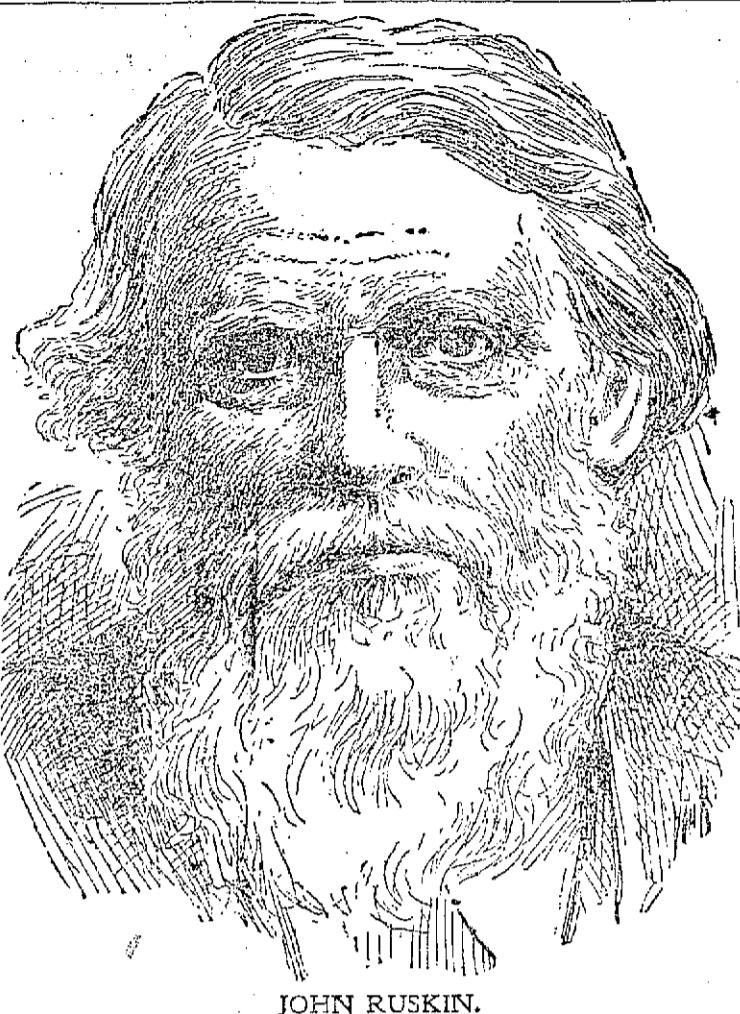

The departure of the second despatchment of the London Volunteers today was accompanied by the customary scenes of distress, and they were given a hearty final send-off on boarding the transports at Southampton.

RETIREEMENT OF GEN. ANDERSON.

MEETING OF THE COMMITTEE OF NATIONAL DEFENSE.—From Illustrated London News

ROBERTS TO BE SHUT OUT

MAJORITY REPORT IS AGAINST ALLOWING HIM TO TAKE HIS SEAT.

WASHINGTON, Jan. 20.—Reports of the special committee of investigation in the case of Brigham Roberts of Utah were presented to the House yesterday morning. They were signed by Chairman Taylor and six of his associates. It is a voluminous document and is accompanied by a summary of the law and facts. It gives the details of the hearings, the ample opportunities afforded to Mr. Roberts to present his case, his testimony and the voluminous findings of facts, heretofore published. It proceeds:

"The committee is unanimous in its belief that Mr. Roberts ought not to remain a member of the House of Representatives. A majority of the members of the committee say that he ought not to be permitted to become a member that the House has the right to exclude him. A minority report finds the proper course of procedure to permit him to be sworn in and then expel him by two-thirds vote under the constitutional provision providing for expulsion."

The report then cites the law and concludes as follows:

SOME PERTINENT QUESTIONS.

"If there is any fact apparent in this case it is that the committee will consider Roberts' having an abiding bias before his election. Can there be room to doubt that he ought not to be permitted to do the proper action of the House? It is prepared to yield up this salutary power of exclusion? Will it declare itself defenseless and ridiculous?"

"The House will take the action which the majority of the committee insists it ought to take, it will for the first time in its history parts with a most beneficial power which it has often exercised, but which the House has never declared it did not possess."

Whether or not the gravity of the question and resulting the responsibility imposed upon us we recommend the adoption of the following resolution:

"RESOLVED, THAT, UNDER THE FACTS AND CIRCUMSTANCES OF THE CASE, BRIGHAM H. ROBERTS, REPRESENTATIVE ELECT FROM THE STATE OF UTAH, OUGHT NOT TO HAVE OR HOLD A SEAT IN THE HOUSE OF REPRESENTATIVES AND THE SEAT TO WHICH HE WAS ELECTED IS HEREBY DECLARED VACANT."

THE MINORITY REPORT.

The minority report of the special committee appointed to investigate and report on the cause of Brigham Roberts dissent from the majority report which recommends that Roberts be not allowed to take his seat. The minority holds that Roberts has a constitutional right to remain in the seat, and can then be expelled by a two-thirds vote.

The recommendation to deny Roberts his seat is condemned as establishing a dangerous precedent, which may be taken advantage of by the House at some future time for purely partisan purposes.

SALT LAKE, Utah, Jan. 20.—Captain Frederick J. Mills, late Lieutenant-Governor of Ohio, was today acquitted of the charge of murder. The jury will cut out a quarter of an hour, just long enough to elect a foreman and take a ballot.

Such a finding was expected by everyone and the announcement of the result was not followed by anything sensational.

Captain Mills was charged with the murder of John C. O'Melveney, chief engineer of the Oregon Short Line, in this city on October 30 last. The evidence showed that while the defendant was serving as an officer in the volunteer army of the United States his wife and O'Melveney became criminally intimate. The defendant learned of these facts on the day of the tragedy, his wife making a full confession. The killing was planned by the wife, who killed her husband and who shot up the plot of insanity.

CHURCH MEETING AT BERKELEY. NEW FACTORY FOR HAYWARDS.

News Notes Picked Up in the College Town.

BERKELEY, Jan. 20.—At the regular monthly meeting of the teachers and officers of the Sunday School of the First Presbyterian Church Thursday evening, plans were discussed for the opening of the new school room which will take place in March. The meeting took place at the residence of W. E. Self.

The addition to the church will be completed early in March. Beside the Sunday School rooms the addition will contain the church parlor and pastor's study. When the church was first the plans included the present addition, but the lack of funds prevented the completion of the entire structure. The rapid growth of the church, however, has made necessary the addition to the building which includes the bussing of the largest and handsomest in the city.

WANT BETTER STREETS.

West Berkeley residents feel that they are not getting their fair share of the street improvements now being made in the town. Many of the streets in that section are in a very poor condition and it is proposed to appoint a committee some of the principal streets graded and macadamized with the costs to be sent to the Town Board in the near future.

TRIAL HASTENED.

The trial of Frank K. Jones on a charge of battery will come up in Judge Edgar's court this afternoon. Jones is the man who got into a row a few weeks ago with Robert Rastin, a conductor on the Berkeley streetcar.

The case had been set for February 1st, but as Jones is an employee on the streetcar, which will suit before trial, Justice Edgar agreed to hasten the trial. The defendant has demanded a jury trial.

CASE DISMISSED.

The case against Ben Shuster, charged with assaulting the police by John Wiedemann, a saloon-keeper of Lorin, was dismissed yesterday on motion of the prosecuting witness, who paid the costs, amounting to \$6.

BIRTHDAY PARTY.

A party was given Thursday evening at the residence of Mrs. A. H. MacDonald, of Ashby avenue, in honor of the birthday of Mrs. Emma Freeman. A very pleasant evening was passed. Those present were: Mr. and Mrs. A. H. MacDonald, Miss Agnes, Jessie, Lulu, Francis, Miss Wood, Miss Freeman, George Grange, Jack Forde, W. E. Brothers and George Weid.

REV. HOPFER WILL PREACH.

Rev. P. Hofner will occupy the pulpit of the First Congregational church tomorrow morning. His services as pastor of the church have been secured for a short time, much to the gratification of the members of the church.

NEWS NOTES.

Supervisors Talcott and daughter were the guests of Haywards friends on Friday. W. F. Darling, superintendent of the San Lorenzo Water Company fell and broke his arm while inspecting the Robins Wells recently. Mr. Darling was standing on a rail which rested on the platform several feet from the ground. Suddenly the rail turned. Mr. Darling fell on his arm, breaking it just below the elbow.

Paul Champney has accepted a position as bookkeeper for the hardware firm of Schilling Bros. in San Francisco.

The installation was conducted by Deputy Grand Chief Ranger Charles Hayes.

EMERYVILLE.

Miss Minnie Wolff of West Berkeley is suffering from a severe attack of erysipelas.

James A. Brown of San Francisco is visiting Berkeley friends.

MT. EDEN.

There were various changes in the weather this week. One day it rained, the next the cold north wind blew, and other days we had the mizzling fog and sunshine during the day.

Myrlands of wild geese came sailing over town Wednesday.

Some of the farmers are still plowing, and others are harvesting.

A move was made by one or two of our citizens to have the railroad depot moved to the lower roadway, which would have been an extra expense to the railroad company, and of no practical benefit to the shipping of passengers. It is in a good position now, as it is situated between both roadways.

The Emeryville School at Mount Eden will open on Monday, January 29th. Registration for the new county register is to begin on Monday, January 22nd at Oakdale and also at San Leandro.

At last the roadway between the town and railroad depot is being put in good order.

The following letters remain uncanceled for at the Mt. Eden postoffice: Geo. Caver, Arnold Conant, C. J. H. Heslin, Mrs. Jacob, Charles Meyer, Thomas A. Rodriguez, A. J. Townsend.

Chinese letters: Lum Hoo.

GOLDEN GATE.

GOLDEN GATE, Jan. 20.—The auction of the Oakland Railroad Company in piping and iron rails near the junction of Alameda and 16th Streets, which caused many residents to look for a sure extension of the San Pablo avenue line. The company, however, is now preparing to build the line to North Berkeley in the spring, and it is not likely that any extension of the San Pablo line will be made for some time.

SATURDAY, JANUARY 20, 1900.

Chicago is making a raid in her gambling section and is arresting all the bucket-shop men. That ought to make lots of business, taking them out.

It seems to be a mistake to chronicle among the local harpingers the arrest of a man for stealing a salp's hawser. That certainly comes under the heading of cable news.

The Pullman Company has just issued an order reducing the wages of its sleeping-car conductors 20 per cent. It is needless to add that the regulation is a blanket one.

Henry Irving says he does not like to leave America without visiting California again. The thought of that \$50,000 cleanup he made in San Francisco must be a golden memory to him.

It ought to be easy enough to get up that proposed procession of centurions in Oakland. There are some people here who, judging by their actions and ideas, must be at least 1,000 years old.

The Duke of Marlborough is to be appointed a state Captain of yeomanry. Wonder whether that is because he is a good deal of a stick, or because he is so well bred, and breed is the staff of life.

Has any one wrestled yet with the proposition of expressing the nineteenth century in Roman figures? If not, try it; the issue seems to be whether it should be written M. D. C. D. or M. D. C. C. C.

There should be no surprise experienced because Mayor Phelan is appointing so many University graduates to good positions in the medical service across the bay. Graduates must certainly be in great demand in that department.

Advices from Washington state that the House has agreed to the constitutional amendment providing for the election of United States Senators by direct vote of the people. That is an essential step in the advancement of the matter, but scarcely a significant one, for there is no reason why the House should be on the negative side. Where the real tug of war occurs is in the Senate itself, and that is where the preparation is more than likely to be beaten.

The announcement that the disposition of Quay's case has been postponed for another month by the Senate may convey more political significance than appears at first sight. The plan may be to keep continuing it until the session is so far advanced that it cannot well be reached at all, and in that way drop it, leaving the honors comparatively easy. Quay would then be able to claim that he would have won had the matter come to an issue, and on the other hand the Senate would escape having to turn him down and thereby perhaps injure his political prestige in Pennsylvania.

Carnegie's donation to our Free Library is doubtless generous. In that there is no red tape about it. The moment he was officially assured that his conditions had been met, along came the word to draw upon him for the money. By the way, it would be interesting to know how many applications for library donations are now pending before him. Even his immense fortune will not be equal to the strain if nearly every city in the United States goes after his pocket-book, as seems to be the case. Judging by the frequency of the announcements of \$50,000 gifts.

THE BOND ISSUE.

The meeting held at the home of Captain Edwin Goodall in order to discuss plans for the improvement of the city, is sure to bring about good results. When a bond issue is put into the hands of such prominent citizens as were present at that meeting, the people need have no fear but that the proposition will carry. We are pleased to see our prominent tax-payers take an active interest in the affairs of our city. Their influence will be felt in the community.

The bond issue is one in which all our people are interested. The voting of bonds means the improvement of our city. It means that Oakland will get in line in the march of progress. To Mr. Goodall and his colleagues we may say: Let the good work go on.

A MONSTER MONOPOLY.

The most colossal of all the working trusts that have so far been formed is that announced from Chicago in connection with the railroads of the Atlantic seaboard. At first thought it would appear to be an utter impossibility to group together the diversified and competitive interests necessarily involved in such a deal, and the mere fact alone that this has been accomplished shows that master minds evolved and master hands conducted the transaction.

The immensity of the proposition can in a measure only be conveyed by the announcement that joint offices will be established for the handling of freight and passenger business, commissions abolished, unnecessary officials discharged, competitive train service abandoned, and other such general details. Simmered down to an actual working basis, it means that competition of every description will be ended and that all the lines of the East will be operated as if they belong to one individual or set of individuals.

In connection with the news, too, comes the ill tidings that preparations are apace for forming a similar consolidation in the West, after which the next step will doubtless be the union of the two forces, thus placing the entire country in the grasp of the greatest monopoly the world has ever seen. With the stifling of competition the abuses that are now rampant would be increased a hundred fold, and all hope would be practically gone for the farmer, who is absolutely dependent upon the lines, and for the business men, and who even now find it necessary to be constantly in arms against the steam roads.

The only apparent salvation is that the scheme will be too big a one to handle and that certain lines will realize that to stay out of the compact will mean greater and more enduring fortunes for them than if they become part of it. Should, however, all the lines be gathered in then the people will have to look to the Interstate Commerce Commission and the various State Railroad Commissions for protection, for nowhere else could assistance be found. The development of the proposed trust, which appears to be assured, as far as the Atlantic lines are concerned, will be watched as one of the great national issues of the century, for in our commercial history nothing before has ever been able to compare with the effect it will have upon the business of the country if it should be formulated on the all-absorbing lines that seem to have been planned.

The malcontents of General Otis, who a few months ago were jeering at him as an incompetent "old woman," and assailing President McKinley for keeping such a blunderer in command of our forces in the Philippines, are significantly silent these days. The daily dispatches from the Philippines, showing the systematic and relentless campaign that General Otis is waging against the scattered and disheartened followers of Aguinaldo are not pleasant reading for his enemies, and they have suddenly developed an absorbing interest in other subjects.

The fact is, that there never was any substantial basis for the outcry that was raised against General Otis' methods of conducting the American campaign, and for the abuse suffered upon President McKinley, whose sound judgment and firmness of character in standing loyally by his subordinate are being so signally vindicated by the events of the last two months. The suppression of the Philippine revolt was a most formidable task, and the fact that it is practically accomplished speaks volumes for the skill and vigor of General Otis' administration of affairs.

Those should be no surprise experienced because Mayor Phelan is appointing so many University graduates to good positions in the medical service across the bay. Graduates must certainly be in great demand in that department.

Advices from Washington state that the House has agreed to the constitutional amendment providing for the election of United States Senators by direct vote of the people. That is an essential step in the advancement of the matter, but scarcely a significant one, for there is no reason why the House should be on the negative side. Where the real tug of war occurs is in the Senate itself, and that is where the preparation is more than likely to be beaten.

The announcement that the disposition of Quay's case has been postponed for another month by the Senate may convey more political significance than appears at first sight. The plan may be to keep continuing it until the session is so far advanced that it cannot well be reached at all, and in that way drop it, leaving the honors comparatively easy. Quay would then be able to claim that he would have won had the matter come to an issue, and on the other hand the Senate would escape having to turn him down and thereby perhaps injure his political prestige in Pennsylvania.

Carnegie's donation to our Free Library is doubtless generous. In that there is no red tape about it. The moment he was officially assured that his conditions had been met, along came the word to draw upon him for the money. By the way, it would be interesting to know how many applications for library donations are now pending before him. Even his immense fortune will not be equal to the strain if nearly every city in the United States goes after his pocket-book, as seems to be the case. Judging by the frequency of the announcements of \$50,000 gifts.

THE BOND ISSUE.

The meeting held at the home of Captain Edwin Goodall in order to discuss plans for the improvement of the city, is sure to bring about good results. When a bond issue is put into the hands of such prominent citizens as were present at that meeting, the people need have no fear but that the proposition will carry. We are pleased to see our prominent tax-payers take an active interest in the affairs of our city. Their influence will be felt in the community.

The bond issue is one in which all our people are interested. The voting of bonds means the improvement of our city. It means that Oakland will get in line in the march of progress. To Mr. Goodall and his colleagues we may say: Let the good work go on.

AN ACTRESS SEEKS DAMAGES.

Katherine Gray, Leading Lady, Tells Her Troubles to an Attorney.

NEW YORK, Jan. 20.—Katherine Gray, actress, has retained Attorney Abe Mansfield to enter suit in her behalf against Richard Mansfield. She alleged cruelty and desertion that it has wrecked her nervous system.

"Mr. Mansfield engaged me last summer to be his leading woman," said Miss Gray, "and he told me I should have advantages that no member of his company ever possessed. These included my own drawing-room, my choice of gowns, a certain number of privileged attentions. They were specified in the contract."

"I came to New York expressly to conquer a lawyer, and saw ex-Judge Dittenhofer, who's Mansfield's lawyer. I was not aware of that. Mr. Dittenhofer said: 'There is nothing to do. You must stand Mansfield's eccentricities. It is not as bad as it seems to you. You must stay in his company and not complain.'

"I remained as long as I could. He is a great actor, you know; I cannot dispute that. He has a great deal of authority. If he wishes to ruin my professional career he has the ability to do it. Mr. Hummel says, 'No; that is nonsense. He cannot; he would not try to do anything of the sort.' But I have a horror of the idea. Now, I have quitted him. It is my duty to sue him and I am preparing to do that."

"I suppose that people remain in his employ because they have to. I had to. But I left him because of his treatment of me, and here I have been for two weeks, ill and worried to death. He has not even sent a word of inquiry. I have not had my salary. I think that Mr. Mansfield will not be permitted to say it is eccentricity of genius in court."

Mrs. Gray is feeble and nervous. She sits in an invalid's chair, between the piano and the wall covered with pictures, at the window of her room. From its height she sees Central Park, and it interests her, but her eyes are weak and she has to wear smoked glasses that displease her.

"I suffered for the indignities that he heaped upon me, and when I expostulated he made excuses in this form:

"'You must not be angry about anything. Attribute only to eccentricity of genius the things that I say or do that grieve you. I am privileged to have a color objects.'

IN WORLD OF MUSIC

Emma Nevada Coming to Macdonough Theater Tuesday Evening.

By JOHN W. METCALF.

Madame Emma Nevada, California's gifted songstress, will appear in concert before an Oakland audience next Tuesday evening at the Macdonough Theater.

Madame Nevada's concerts which she gave in San Francisco served as a grand welcome home to her who had been absent from her childhood scenes so long. Although her work for the past twelve years has been mostly in grand opera, her travels being confined almost exclusively to the European continent, it is as a concert prima donna that she has chosen to appear during this present tour, which is an untranslatable one.

Madame Nevada, who, as a girl, was known as Miss Emma Wixom, was born in California and was educated chiefly at Mills Seminary, now located in New York. It was there that her musical nature began to unfold itself. It was also there that her earliest triumphs were scored, when as a school girl, she awakened the unbound admiration of her schoolmates by her wonderful bird-like voice and won their love by her beauty of character and disposition.

Later, after finishing at Mills, she went abroad and sought out her teacher, Madame Mathilde Marchesi, with whom she remained until such result was produced.

The world knew her as Emma Nevada, the young woman who had

immediately after her marriage to Dr. R.

Her first visit to her native land was

without a break, upon which she certainly more especially a strictly musical audience, which was not the case in this instance.

Mr. Griswold was assisted, at this concert, by Miss Anna Miller, soprano; Mrs. Ellen Drew, contralto; Clement Rowlands, baritone; William H. King, organist; E. A. Wolf, violinist; John W. Mansfield, pianist, and by Misses Elizabeth Westgate, Pauline Collins and Estelle Mar-

tin, who accompanied.

The program was given without a break, and was most attractive, among being built upon plans which were certainly more especially a strictly musical audience, which was not the case in this instance.

Mr. Griswold was in excellent voice and sang well, but his numbers generally were not too much enjoyed by the audience. The same may be said of several of the other numbers which pleased most was Hawley's "Ah! 'tis a Dream." The numbers which showed him successfully as an interpreter of oratorio, however, were sung with the greatest interest and were well received.

Mr. Griswold's ability to hold the future unless the writer is greatly mistaken, his voice is quite remarkable. His voice is

such as few possess and should bring him a name and fortune.

Mr. Griswold leaves very shortly for London and the continent, where he will study, undoubtedly, to develop his art to the greatest possible extent, and the best wishes of his many friends go with him. Meanwhile his friends will watch his progress with much interest.

This concert was also of note from the fact that it introduced an organist, William B. King, who has been studying in Paris, where "Vidor" for the past three years, and whose skill and enthusiasm with which Mr. King has received basic again. His friends showed their loyalty and appreciation to the organist.

Mr. King chose for his numbers works adapted to the organ upon which he was to play, and succeeded in showing it off well.

Mrs. Schubert sang excellently in the "Hommere" from "Carmen," and appeared as well as she sang here being distinctly the Spanish type, heightened by a touch of red in the roses which she carried.

Mrs. Ellen Drew, soprano, made her first appearance in Oakland as a contralto, and naturally sang at a disadvantage. But what singer is entirely free from such a handicap? She responded to an encore with a smile, and did not take a timely suggestion given in the middle of the spirit amiss. If he were more careful as to his posture while playing, the effect of his performance would be enhanced.

The accompanists all did good work. It is most trying to have one's music collapse and fall from the rack, but such things will sometimes happen, and are not always among the least of the accompanists' troubles.

Following was the program:

(a) Nocturne Chopin
(b) Scherzo Chopin
Mr. Pratt Chopin

"Bell Song" (from Lucia) Delibes

Mme. Nevada

"Hungarian Caprice" Dunkler

Mr. Blumenberg

(a) Etude Henselt

Apropos of Madame Nevada and her loyalty to America and Americans, the American composer comes in for a share, and the following little tale may not be uninteresting to the general public:

"When I left America, in 1870, Nevada on her arrival in New York was so indiscreet as to tell the reporters that she intended to add new Americans songs to her repertoire and promised to devote some time to hearing new works on native compositions. When she gave the first concert of her manager, Mr. Charles Young, who happened to be standing by, was warned her that there would come an overpowering deluge of new songs, but the unsuspecting prima donna only laughed lightly at the idea. Her manager, however, had changed to continental lines, for the deluge set in. Songs began to arrive at the Fifth Avenue Hotel by dozens, scores and hundreds. Mme. Nevada's mind was kept busy all day long answering the summons of bold boys bearing the words of the new songs, and was soon tired with coon songs and "mother" songs and rag-time songs and every other species of songs until the great catastrophe had been made possible. She certainly deserves the soubrette's chance of the community for having placed so education a face with which she could not be compared. The orchestra as it now stands is composed of: First violin—John Marquardt, principal; N. Landesberger, H. Punke, J. Joseph, H. Seling, H. Wismer, D. Lada,

Messrs. Rowlands and Griswold, and Wm. B. King, and Lemare.

The first concert of the symphony series was given on Thursday afternoon under the baton of Henry Holmes at the Grand Opera House. The house was well filled, and the program went more smoothly than it did at the experimental concert of two weeks ago. With a few more performances, the orchestra will be in good working order, and the great spots which now seem apparent to the hypercritical will have disappeared. The possibilities for fine work are certainly there, and in front hands.

Mrs. Nevada was present at the concert, and it was her enthusiasm and great generosity that these fine concerts have been made possible. She certainly deserves the soubrette's chance of the community for having placed so education a face with which she could not be compared.

Messrs. Rowlands and Griswold, and Wm. B. King, and Lemare.
